# WAKE THE TIGER

AMAZEMENT PARK®

**2023 MURAL FOR WAKE THE TIGER - Approx.  
2.5M x 2M Acrylic & Acrylic markers.**

Commissioned wall mural for Wake the Tiger, the world's first 'Amazement park' in Bristol UK. By the creators of Boomtown festival, Wake the Tiger is a 30 room amazement park with a storytelling narrative expressed through spatial designs with a focus on the mind and experience.

I created this wall mural in under one week for Wake the Tiger's new development with a freestyle process of drawing to music, carefully curating a colour palette and general aesthetic to match the psychedelic feel of the existing interior space.

# BELLISA

CLOTHING DESIGN PATTERN

## Digital repeat pattern design on velour fabric

A freestyle digital artwork design for clothing brand 'BELLISA X' as part of their new Design Your Own campaign which allows the customer to create their own one of one clothing piece.

The themes of this campaign were freedom and identity, from a unique freestyle drawing process to the element of designing your own clothing.

These artwork designs were featured at New York Fashion Week 2024.

PACKAGING DESIGN

### Packaging design 2023

Digital drawing printed onto cardboard packaging boxes.

This packaging design for CBD brand 'Double Tap' was created from an initial digital drawing and wrapped onto a cardboard box for product delivery.

Given the nature of the brand, it was important to include organic forms within this artwork design whilst creating an engaging, one of one artwork that will set this brand apart from its competitors.

**BOOMTOWN**

MURAL

2024

## BOOMTOWN OFFICIAL FAIR MURAL 2024/25 - 4m x 2m acrylic and markers.

I was commissioned by Boomtown fair as a mural artist to create this 4 meter by 2 meter mural for 'copperwood' in the main arena / district. I created this piece in 32 hours over three days and with a freestyle approach. with no plan other than colours.

I used UV reactive paint on areas of the mural that created a distinctive piece both during the day and night.

THE RESULT:

The background of the image is a dark, almost black, stage setting. In the foreground, the lower portions of several people are visible, including a man on the left and a woman in the center, both appearing to be part of a musical performance. The most prominent feature is a large, intricate, and dense drawing in a vibrant blue color. This drawing consists of numerous overlapping, swirling, and looping lines that create a complex, organic, and somewhat chaotic pattern, resembling a large-scale abstract sculpture or a highly detailed calligraphic work. The blue lines are thick and have a slightly textured appearance, as if they might be made of a material like fabric or paper. The overall composition suggests a performance where live drawing is integrated with music.

# **DUALITY SESSIONS:**

LIVE DRAWING TO MUSIC

### **DUALITY SESSIONS: Live drawing to music concept**

Independently curated concept based around my freestyle approach to drawing to music. Celebrating the duality of art and music as one. I display these live drawings primarily digitally and plan to continue to develop this concept.

These live drawing shows have been showcased in various settings such as: music video production, music events, and interactive theatre performances as shown.

REBEL  
RECORDS

MURAL

**2020 MURAL FOR REBEL RECORDS – 5M x 2M in marker pens**

Freestyle wall mural created to music for Rebel Records, London.

This music studio sees A-List artists record music and videos like Central Cee's 'One Up' Video where this mural was also featured.

# NOTHING

POP UP STORE CONCEPT DESIGN

**NOTHING. concept design for new pop up store.**

I was subcontracted to create a 3D model concept of nothing.'s new pop up store for their new headphone and phone release in Soho London.

The brief loosely expressed the want for a conveyer belt system that fed new products to customers throughout the space.

Images display the process from sketch to build from our concept model.
